Pintform and Resolutions.

Besolved, 1. That we, the representatives of the Democratic and Liberal party of the State of Nevada do hereby express our greatest confidence in the administration of our present Executive, the Hon. L. R. Bradley, who, for the honest and upright manner in which he has administered the affairs of State, deserves the full and hearty confidence of all persons, irrespective of politics, in the State.

2. That we are opposed to those combinations of massed capital which determine to direct, control and debauch legislation; which endeavor to override and crush out every man and every interest they cannot control or use; which make bribery a trade, corruption a system, and openly malign or secretly whisper away the good name of every public man who will not do their bidding.

3. That we are opposed to the granting of mbsidies in any form, either by Congress or the Legislature of the State. Legislature of the State.

4. That we are opposed to the election of any candidate for the presidency to a third term of

office.

5. That the Democratic party of this State does most unequivocally condemn the late enactment of the Congress of the United States known as the "Back Salary Act."

6. That we are opposed to the introduction of Chinese in our midst, and to the end that the laboring men of this State may not have to compete with Chinese labor, we request our Senators and Congressmen to take such action as may be necessary to secure the repeal of the present treaty with the Empire of China.

7. That cheap transportation is actually neces-sary for the well-being and prosperity of the State, and that we favor the passage of a law by the next Legislature regulating the tariffs of freights and farse on railroads in this State and preventing unjust discrimination.

8. That we are in favor of taxing the property of railroad companies the same as other prop-

preventing unjust discrimination.

8. That we are in favor of taxing the property of railroad companies the same as other property, and that the property of railroad companies should be adjusted as near to its actual cash value as other property is now assessed.

9. That we are in favor of the adoption of a law by the Legislature limiting a legal day's work to eight hours.

10. That we are opposed to the repeal or modification of our present buildon tax law, as we consider it the most just and equitable that can be devised, as it is only by this mode of taxation that a large amount of foreign capital that exacts the protection of our laws can be brought to bear its just proportion of the expenses of the State and county Governments.

11. That we arraign the party of the administration in power for its unexampled extravagance and corruption, and for its unconstitutional and dangerous usurpation of powers not delegated to the Federal Government: we demand an honest, economical and just administration of national affairs; we demand an immediate abandonment of all efforts to rule be states for corrupt party purposes by an infamous alliance of carpet-baggers, scalawags and bayonest; we heartily condemn the conduct of those who, under any pretense or guise, diagrace themselves and their country by lawless acts of violence against the colored race in the Southern States; as also those carpet-baggers who have for years past esten up the substance of all new guilty of colored race in the Southern States; as also those carpet-baggers who have for years past esten up the substance of all new guilty of colored race in the Southern States; as also those carpet-baggers who have for years past esten up the substance of all new guilty of corruption and embessite of all new guilty of corruption and embessite.

Republican State Platform.

The Union Republican party of Nevada, in Convention assembled, renewing its pledges of devotion to the Constitution and laws of the Federal Government, hereby announces its visitory not the people as follows:
ples and policy of the Republical party as simplicated by its last National Convention; that we are proud of its history and great services, and we especially commend the vigor and force by which it maintained the Union, abolished slavery, and secured equal civil and political rights to all citizens. We demand that these rights befenforced by appropriate legislation, so that all citizens shall have the equal enjoyment of their rights. We demand of our public agents fidelity to their principles; the honest execution of the pediges made to the public; purity, integrity and economy in the discharge of their official duties, and the prompt and fearliess examination and punishment of those who violate any of their obligations.

Second—That we hereby endorse the last Republican Congress in repealing the law increasing official salaries. In reducing expenses by more than \$20,000,001 in successfully resulting abuses generally, whereby the Republican party has proved itself to be worthy of continued support of the people.

Third—That we earnestly desire that the credit of the country be firmly maintained, in order that its commercial and industrial interests may not suffer injury by the fluctuation of values, or by impairing the degree of confidence which now prevails with regard to the circulating medium, which we hope soon to see based on a metallic currency.

Fourth—That we disapprove of the election of a President for a third term, as establishing a precedent dangerous to the perpetuity of Republican institutions.

Fifth—That honest, practical labor should be protected and receive a just reward, in support of which view we favor the revision of our treaty relations with the Empire of China in such a submit

a fair and equal amount of taxation upon all property owned or controlled by them in this State.

Eighth—We believe the office and duty of a statesman to be to do the business of the State, and in the transactions of the business of the State, and in the transactions of the business of the State, and in the transactions of the business of the State, and in the transactions of the business of the State and the transactions enterprising and discreet business men in the State, hereby pledging such men and all new candidates before us and the nominees of this Convention, if elected, to do business for the State as industriously, economically and discreetly as in their individual capacity private citizens do business themselves; that the compensation of public employes should not exceed the price, turn or amount that smilar services command in private pursuits of the State.

Ninth—That the education of the children of the State is a matter of deep public concern. The public schools and the acheel found of the State dam the fostering care of all good citizens. The school fund of the State should be invested in bonds of the State, unassignable both in term and fact. The defraying of the expenses of the State Land Office out of the principal irreducible school fund is a breach of trust and disgraceful to the State.
